COMPUTERS IN INDUSTRY

Contents of volume 33

Volume 33, Nr. 1, August 1997

Special issue: Learning in Intelligent Manufacturing Systems

Editorial

1 (Special Issue of Computers in Industry on Learning in Intelligent Manufacturing Systems)
L. Monostori

Papers

5 Approaches to coupling connectionist and expert systems in intelligent manufacturing
D. Barschdorff, L. Monostori, G.W. Wöstenkühler, Cs. Egresits and B. Kádár
17 Classification problems in manufacturing of sheet metal parts
W. Greska, V. Franke and M. Geiger
31 A learning reactive scheduler using CBR/L
E. Szelke and G. Márkus
47 Process planning by retrieval and adaptation
A. Márkus, J. Váncza and M. Horváth
61 Design and real-time reconfiguration of robust manufacturing systems by using design of experiments and artificial neural networks
I. Mezgár, Cs. Egresits and L. Monostori
71 Supervision of quality in process chains by means of learning process models
E. Westkämper
83 Learning from design histories in concurrent engineering
J.G. Gammack and D.G. Jenkins
91 CIM software and interfaces
B.J. Davies
101 Learning the peg-into-hole assembly operation with a connectionist reinforcement technique
M. Nuttin and H. van Brussel
111 On hybrid learning and its application in intelligent manufacturing
L. Monostori and Cs. Egresits
119 Compensation of thermal deformations in machine tools with neural nets
P. Vanherck, J. Dehaes and M. Nuttin
127 A case-based reasoning approach towards learning from experience connecting design and shop floor
Chr. Nedeß and U. Jacob
139 Off-line programming of industrial robots – Adaptation of simulated user programs to the real environment
E. Roos and A. Behrens

Volume 33, Nr. 2, September 1997

Special issue: Co-operation in Manufacturing, CIM at Work

Editorial

151 Co-ordination in Manufacturing: CIM at Work
H.S. Jagdev

Papers

155 Designer support for product structuring—development of a DFX tool within the design coordination framework
M. Tichem and T. Storm
165 Architectures for product families
F. Erens and K. Verhulst
179 Capturing and assessing formal interaction at task level in product development
R. Oehlmann, K.-D. Thoben and F. Weber
191 Using dependency records to generate design coordination advice in a constraint-based approach to concurrent engineering
J. Bowen
201 An infrastructure to support concurrent engineering in bid preparation
M. Krömker, K.-D. Thoben and A. Wickner
209 Only people learn: organisations and systems can adapt
H. Bolk, P. van Elswijk, T. Melis and A.M. van Praag
217 Simulation games in CIM and the learning organisation
T. Savolainen
223 Bottom-up planning approaches in enterprise modelling—the need and the state of the art
W. Reithofer and G. Naeger
237 Engineer co-operation in the specification of a flexible assembly system—a pilot study
K.J. Nelson and R.U. Ekmark
245 Designer support for assembly decisions
M.A. Willemse and T. Storm
253 Development of a printed circuit board design for in-circuit test advisory system
T. Lawlor-Wright and C. Gallagher
261 A framework for classifying flexibility types in manufacturing
J.P. Shewchuk and C.L. Moodie
271 Flexibility in manufacturing: An architectural point of view
H.J. Pels, J.C. Wortmann and A.J.R. Zwegers
285 Design principles for open and reusable shop-floor control software
N. Andersson
295 Evolutionary development in shop floor control
L. Bongaerts, P. Jordan, P. Timmermans, P. Valckenaers and J. Wyns
305 Hierarchical and heterarchical behaviour in agent-based manufacturing systems
M. Cantamessa
317 Improving the PAC shop-floor control architecture to better support implementation
R. Maglica
323 Holonic machine controller: A study and implementation of holonic behaviour to current NC controller
P.I. Tanaya, J. Detand and J.-P. Kruth
335 An Orders Release reference model as a link between production management and shop floor control software
I.P. Tatsiopoulos

345 A tool for object-oriented modelling and analysis of business processes
K. Mertins, R. Jochem and F.-W. Jäkel
357 A QFD based performance measurement tool
H. Jagdev, P. Bradley and O. Molloy
367 Exploration methods in business process re-engineering
M. Rajala, T. Savolainen and H. Jagdev
387 GRAI integrated methodology and its mapping onto generic enterprise reference architecture and methodology
D. Chen, B. Vallespir and G. Doumeingts
395 Towards a typology of electronic product information distribution
M.H. Jansen, B.H.P.J. Vermeer and H.S. Jagdev

411 Author index to volume 33
414 Subject index to volume 33
416 Contents of volume 33
